

CSESA

The Center on Secondary Education for
Students with Autism Spectrum Disorders

A Comprehensive Approach to Supporting Students With ASD in High School

Samuel Odom, Kara Hume, Jenny Redding Gustafson, Colleen
Reutebuch, Kate Szidon, and David Test

About CSESA

- Research & Development Center
- Funded by the Department of Education (IES)
- Purpose: To develop and study a comprehensive high school program for students on the autism spectrum

CSESA Sites

SAN DIEGO STATE

Center Purpose

“To conduct a program of research to develop & evaluate a comprehensive, school-based intervention program for secondary students with ASD. The ultimate objective of the Center is to improve the cognitive, communicative, academic, social, behavioral, functional, or transition outcomes of secondary students with ASD.”

The Goal of CSESA

To improve post-secondary outcomes
for students by using high quality
professional development and
evidence-based interventions to
support practitioners, families, and
students

**FOR YOUR SUBJECTS
WHEN THEY GRADUATE:**

- 1) SOMETHING TO DO**
- 2) SOMEWHERE TO BE**
- 3) SOMEONE TO LOVE.**

GOOD LUCK!!

[ABOUT THE CENTER](#)[OUR TEAM](#)[RESOURCES](#)

We Are Looking For Your Success Stories!

Do you know a high school student with ASD that has amazed you with his/her accomplishments? A teacher that has taken his/her students beyond expectations? An administrator that has supports in place to ensure success for students with ASD?

[Read more »](#)

The Center on Secondary Education for Students with Autism Spectrum Disorders (CSESA) is a research and development project funded by the U.S. Department of Education that focuses on developing, adapting, and studying a comprehensive school-based and community-based education program for high school students on the autism spectrum.

CSESA is a five year project that brings together experts in autism, secondary education, adolescence, and implementation to work in collaboration with high schools, families, adolescents with ASD, and community members.

A low-angle photograph of three graduates in black gowns and white shirts, looking up with their arms raised in celebration. Three black graduation caps are floating in the air above them against a bright blue sky with scattered white clouds. The text 'CSESA RESEARCH' is overlaid on a white rectangular background in the upper left portion of the image.

CSESA RESEARCH

The Big Picture

CSESA Components

CSESA Foundations -What is it?

Professional development process to support use of high school interventions and EBPs

- originally developed by NPDC over 5 years
 - focus birth-22 years of age
 - tested in 72 school programs
 - 12 states
 - Iterative process with revisions along the way
- Adapted for CSESA

Foundation Components

- Assessment of quality
 - Autism Program Environment Rating Scale (APERS)
- Development of observable and measureable goals
 - Using of Goal Attainment Scale to assess student progress
- Linking goals to Evidence-Based Practices
 - Recent review yields 27 practices (Wong et al., 2014)

Academic

Alternative Achievement Literacy (AAL)

Collaborative Strategic Reading—High
School (CSR—HS)

Overview of AAL/CSR–HS

Target Areas

- Comprehension

Strategies

- AAL: prompting, visuals, adaptation of text, systematic instruction
- CSR: Before, during, after with visuals, graphic organizer, self-monitoring checklist, and peer pairing

Implementation

- AAL: Daily
- CSR–HS: 30 minute sessions 2 to 3 times per week

Implementation Snapshot: AAL

 <p>main idea</p>	<p>what the story is about</p>
 <p>mood</p>	<p>the feeling of the story</p>
 <p>theme</p>	<p>the lesson the story teaches</p>
 <p>time out</p>	<p>a short break in the game</p>

Friday						

after school so she could draw
my hands.^{1,2}

When she was done she showed
me her drawing.

Prompts for Passage Reread

1) Read 3 sentences of text containing the answer.

– If incorrect response, move to next prompt.

– If no response cue student to help card and move to next prompt.

2) Read 1 sentence of text containing the answer.

3) Read and point to the answer.

4) Point to answer on response board and state answer.

Implementation Snapshot: CSR–HS

CSR–HS STRATEGIES GUIDE

Rationale

Develop skills for enhancing comprehension of informational text by using strategies before, during, and after reading

Standards

- Know and use various text features to locate key facts or information in a text.
- Ask and answer questions about key details in a text.
- Identify the main topic and retell key details of a text.
- Ask and answer questions to determine or clarify the meaning of words and phrases in a text.

Preparation

Before introducing any Collaborative Strategic Reading – High School (CSR–HS) lesson, establish pairs and set expectations:

- Pair students with heterogeneous skills and abilities.
- Establish expectations for paired work, so that all

students contribute and work cooperatively with one another; set expectations for reading; and set expectations for student engagement.

- Invite students to contribute examples and nonexamples of expected behavior during CSR–HS work groups.

Student Materials

- One per student:
 - Text with key words
 - Learning log
 - Writing utensil
- One per pair:
 - Checklist with discussion prompts
 - CSR–HS graphic
 - Question stems

Teacher Materials

- Lesson plan
- Illustration
- Timer
- Learning log evaluation rubric

Teacher Introduction 2 to 3 minutes

The following activities are recommended during this phase:

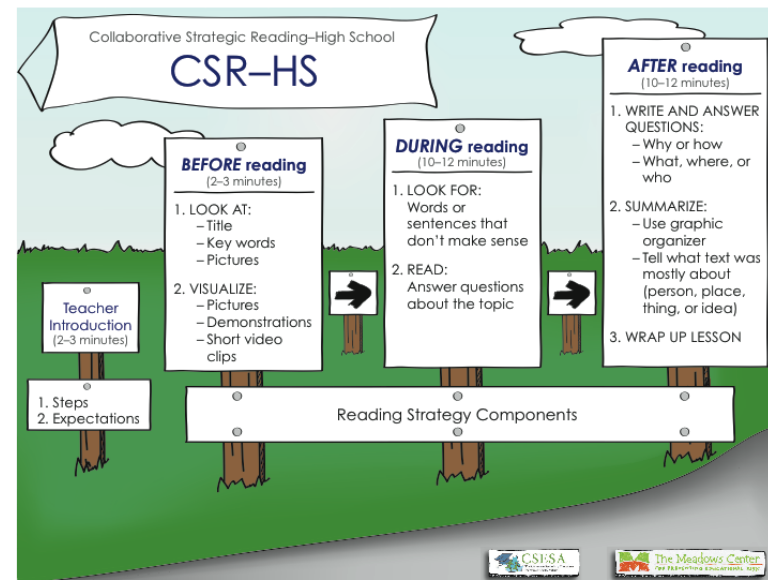

- Have materials ready and organized.
- Ensure pairs are in place and prepared for CSR–HS.
- Communicate expectations by providing clear, explicit indications of goals for assignments and activities.
- Provide explicit instruction for the assignment and activities.

Before Reading 2 to 3 minutes

To prepare students for reading, the following activities are recommended:

- Introduce the topic.
- Preteach key words and/or proper nouns.
- Build background knowledge or connect to students' prior knowledge (e.g., through pictures, videos, demonstrations).
- Set the purpose for reading.
- Have students write key words in their learning logs.

Implementing in High Schools

Successes

- Access to grade level/grade appropriate texts
- Increases in social interaction and task engagement

Troubleshooting & Adaptations

- *Implementer reluctance*

Model, coach, adjust to fit instructional situation

- *Complexities of high school* (variations in scheduling, e.g. block/traditional; competing demands)

Allowing for flexibility and adaptations that differ by setting and implementer

Independence and Behavior

PRISM (Promoting Responsibility,
Independence, and Self-
Management)

Overview of PRISM

Target Areas

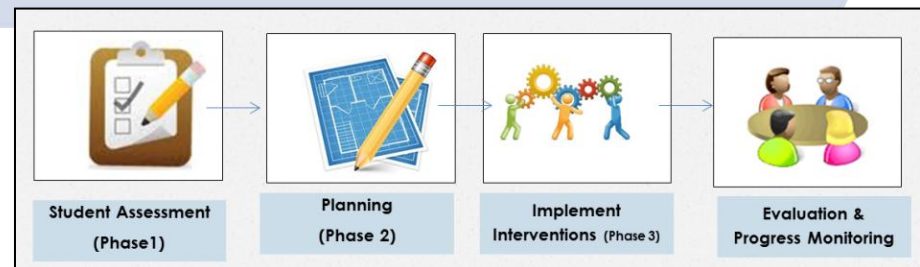

- Variety of behaviors related to independence and adaptive behavior
- Responsibility and Independence; Community Engagement; Self-Management

Strategies

- Evidence-based practices from NPDC
- E.g., Visual supports, self-management, task analysis, peer-mediated interventions

Implementation

- Process of assessment, planning, implementation and evaluation with team
- 30 minutes per week of work with student, embedded in instruction

Implementation Snapshot: Student Assessment

Secondary School Success Checklist

<ul style="list-style-type: none"> <input type="checkbox"/> Accesses and follows daily schedule <input type="checkbox"/> Uses tools to document assigned work and/or scheduling information <input type="checkbox"/> Uses organizational system to document work completion <input type="checkbox"/> Brings appropriate materials to assigned location <input type="checkbox"/> Materials/work space are organized <input type="checkbox"/> Identifies steps required to complete assigned activities <input type="checkbox"/> Begins assigned activities within allotted time <input type="checkbox"/> Completes assigned activities within allotted time <input type="checkbox"/> Returns materials to correct location at the end of activities <input type="checkbox"/> Arrives at assigned location or activity on time <input type="checkbox"/> Moves to next destination or next activity <input type="checkbox"/> Attends scheduled meetings with work groups, staff, etc. <input type="checkbox"/> Requests/initiates meetings with work groups, staff as appropriate <input type="checkbox"/> Manages free time appropriately <input type="checkbox"/> Other: 	<div>Foundational EBP</div> <ul style="list-style-type: none"> <input type="checkbox"/> Differential reinforcement* <input type="checkbox"/> Prompting* <input type="checkbox"/> Reinforcement* <input type="checkbox"/> Task analysis* <input type="checkbox"/> Time delay* <input type="checkbox"/> Computer aided instruction* <input type="checkbox"/> Parent implemented interventions* <input type="checkbox"/> Self-management* <input type="checkbox"/> Social narratives* <input type="checkbox"/> Structured work systems* <input type="checkbox"/> Video modeling* <input type="checkbox"/> Visual supports*

Implementation Snapshot: Implementing Linking Goals to Evidence-Based Practices

- **Implementation:**
 - Met in Academic Strategies class to teach task analysis
 - Used visual supports to teach concept, along with prompting, reinforcement
 - Used technology (iTouch & iPad)
 - Moved into English II class

Let's Practice

- What are the steps to making a call on your phone?
 - Tell me the steps
 - I will write them down
 - I will try them out

Implementation Snapshot: Evaluation

Linking Goals to Evidence-Based Practices

- Data collection on fidelity of implementation
- Data collection on student performance
- Social validity data from student and staff

<http://autismpdc.fpg.unc.edu/content/briefs>

Module: Task Analysis

Observation Date	1	2	3	4	5	6
Observer's Initials						

Step 3. Breaking the Skill into Components

1. Segment the target skill into more manageable components by:

- completing the skill themselves and recording each step or
- observing another person (in real time or via video) complete the activity and recording the steps.

2. Confirm that each component consists of a discrete skill.

Step 4. Confirming that the Task is Completely Analyzed

1. Confirm that the task is completely analyzed by having someone follow the steps verbatim.

Step 5. Determining How the Skill Will be Taught

- Select the appropriate teaching method by matching the method to:
 - The learners temperament,
 - The learners learning style.

Weekly Observation - PRISM

Date: _____ Student ID HERE _____

Conducted during: ☐ Teaching session ☐ Generalization Time: ____:____
 Location: _____ Length: ____ min.

Observation of PRISM goals

Latency?	Time in seconds / minutes	Time in seconds / minutes	Time in seconds / minutes
Other?	Metric: _____	Metric: _____	Metric: _____
Level of support	Ind. <input type="radio"/> Low <input type="radio"/> Med. <input type="radio"/> High <input type="radio"/>	Ind. <input type="radio"/> Low <input type="radio"/> Med. <input type="radio"/> High <input type="radio"/>	Ind. <input type="radio"/> Low <input type="radio"/> Med. <input type="radio"/> High <input type="radio"/>
Notes/Anecdotal			

How do you think it's going?

☐ I use it & it's helping to make sure I do my assignments in class and turn them in

☐ I use it but don't think it's helping me

☐ I don't really use it but if I did I think it would help

☐ I don't really use it and don't think it would help if I did

"It was exciting to see how quickly Mike learned the steps to the task analysis and how quickly he began implementing his new strategies"

Implementing in High Schools

Successes

- Secondary School Success Checklist
 - Teachers, parents, and students complete
 - Helps to assess performance and priority of various skills
- Embedding technology
 - Using iTouch and iPad has been successful with students and in classrooms

Troubleshooting & Adaptations

- Planning document was too cumbersome & time consuming
 - Shortened planning process
- Generating buy-in from general education teachers
 - Pre-teaching concepts & involving general educators once skill is coming along

PEER AND SOCIAL COMPONENT (PASC)

Peer Supports

Peer Networks

Social Competence Intervention (SCI-H)

Overview of Peer Supports and Peer Networks

Target Areas

- Students with intellectual disability and/or autism
- Accessing statewide OR alternate assessments

Strategies

- Facilitator (i.e., paraprofessional, educator, counselor) receives training on recruiting/training students and facilitating support
- One or more peers learn how to converse with, provide support to, and/or collaborate with a student with disability
 - Peer supports happen **inside** the inclusive classroom
 - Peer networks happen **outside** of the classroom

Implementation

- Process of recruiting, planning, implementation, supporting, and evaluating with team
- Students sit together each class period (peer supports) or social activity (peer networks), and peers provide academic and/or social support throughout their time together

Implementation Snapshot:

Peer Support

- **Student:** Male student with ASD
- **Goal:** Increase social interactions and academic engagement during art class
- **Implementation:** Art classroom
- **Results:** Increased social interactions and academic engagement during art class

Implementation Snapshot:

Peer Network

- **Student:** Male student with Asperger's Syndrome
- **Goal:** Increase social interactions/initiations (to/from other students), increase extracurricular participation
- **Implementation:** 2x per week; conference room
- **Results:** Increased social interactions/initiations to/from other students

Implementing in High Schools

Successes

- Decreased proximity to paraprofessionals (peer supports)
- Increased academic engagement (peer supports)
- Increased interactions with peers without ASD
- Viewed favorably by facilitators, general educators, peer partners, and focus students

Troubleshooting & Adaptations

- Developing a training webinar for peers
- Involving students with disabilities in orientation sessions
- Exploring avenues to deploy these strategies more widely when special education staff are not present

Overview of Social Competence Intervention (SCI-H)

Target Areas

- High school students with high-functioning ASD or similar social challenges
- Full Scale IQ of at least 75

Strategies

- Assists students in understanding how to (a) adapt to changing social environments, (b) recognize thoughts/feelings of others, (c) positively influence interactions through their own behavior, and (d) access problem solving strategies to develop relationships with others

Implementation

- 45 min; at least twice per week
- Implemented by 1 or more facilitators
- Incorporates specific behavior management and token systems

Implementation Snapshot

- **Student:** Male student with ASD, age 18
- **Goal:** Improve social functioning and increase working knowledge of social skills
- **Implementation:** 45 min, 2 x per week
- **Results:** Increased eye contact, initiations, participation in SCI-H sessions

Implementing in High Schools

Successes

- Increases in appropriate responding, initiations, and overall social skills
- Enhanced ability to problem-solve

Troubleshooting & Adaptations

- Not as appropriate for students with ASD who have intellectual disability
- Facilitator training

Transition and Family

- Transition Strategies
(IEP and work-based learning)
- Transitioning Together

Overview of Transition and Family

Target Areas

- Teachers: Community and school mapping, improved transition planning, IEP writing
- Students: Involvement in IEP, participation in transition planning, work-based learning experiences, portfolio building, social groups during parent meetings
- Parents: Involvement in parent group and learning about the transition out of HS

Strategies

- Community and school mapping
- Indicator 13 quality rubric
- Curriculum to involve students in their own IEP
- Work based learning experiences
- Transitioning Together parent and teen 8 week intervention groups

Implementation

- School teams map local resources , improve transition IEP writing
- Students participate in curriculum on IEP participation and work based learning activities
- Parents and students attend Transitioning Together groups

Implementation Snapshot

- IEP participation example Animoto:

[Christopher's story](#)

- Work-based learning example

Today's Site: Habitat Restore

- ☐ Wash windows
 - Get rags from kitchen
 - Get Windex from cupboard in kitchen
 - Clean all the front windows
- ☐ Wash front doors
 - Use rags
 - Use Windex from cupboard in kitchen
 - Clean with two front doors at the front of the store
- ☐ Check with Supervisor

Implementing in High Schools

Successes

- More comprehensive transition assessment is occurring
- Increase in student presence at IEP meetings
- Combining IEP (Whose Future is it?) with AAL adapted text materials

Troubleshooting & Adaptations

- IEPs, I-13 compliance vs. quality
- Still working on developing portfolio options

Implementation Snapshot

Transitioning Together

TIPS FOR HANDLING STRESS

Have Fun!

- Use humor
- Date night
- Fireworks
- Bouncy balls
- Hit the easy button on someone's desk
- Summer camp
- Video games (calm soothing environment)

Take Time to Stop and Think

- Plan an imaginary revenge fantasy
- Sit and mentally process
- Focus on the task at hand
- Listen to music
- Take a bath
- Quietly fidget
- Create some distance--remove yourself from the stressful situation so you can think about
- Talk to someone about your stress

Let Go

- Reprioritize (and let go)
- Learn to "let go and let God"
- Learn to realize you can't change everything
- Deal with and accept life as it is

Do Things You Like

- Take a walk
- Go for a drive
- Exercise
- Go fishing
- Cook
- Clean
- Have a drink
- Read a book
- Go golfing

Implementing Transitioning Together in High Schools

Successes

- Students and family members report high satisfaction with Transitioning Together groups.
- Students are developing the video for incoming students

Troubleshooting & Adaptations

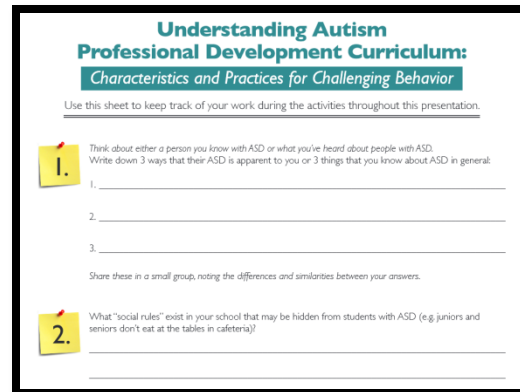

- Adapting curriculum to address needs of English language learners

The Big Picture

CSESA Resources

- Brand NEW Professional Development Series

 - Articles and Snapshots

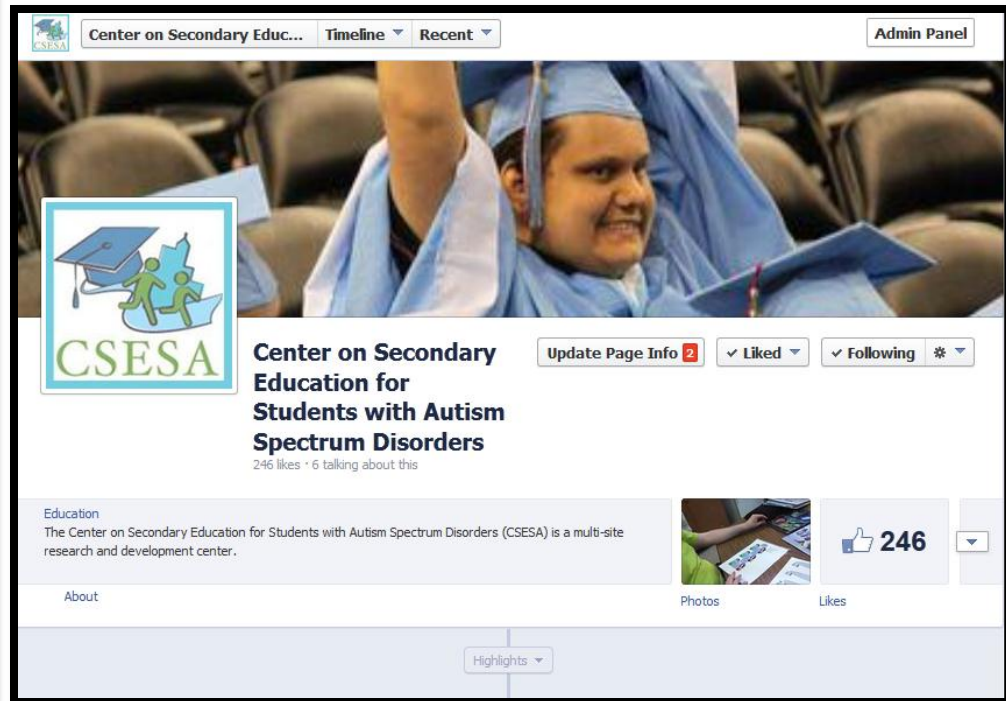

Find CSESA

- <http://csefa.fpg.unc.edu/> www.facebook.com/csefa.asd

The screenshot shows the CSESA website homepage. At the top, there is a logo for CSESA (Center on Secondary Education for Students with Autism Spectrum Disorder) and a navigation bar with links: ABOUT THE CENTER, OUR TEAM, RESOURCES, and PARTNER WITH CSESA. A prominent feature is the "CSESA Advisory Board Meeting" announcement, which includes a photo of the meeting and text stating that members gathered in Chapel Hill, NC to discuss lessons from their first year pilot studies. Below this, there are "CSESA HIGHLIGHTS" with several articles, including "Learn about the CSESA social component at the ASHA Convention" and "NEW!! Autism resource for high school teachers - Guide with video links". A "Connect with CSESA!" section offers options to sign up for eNews, find CSESA on Facebook, and partner with CSESA. At the bottom, a paragraph describes CSESA as a research and development project funded by the U.S. Department of Education, focusing on developing a comprehensive school-based and community-based education program for high school students on the autism spectrum. It also mentions that CSESA is a five-year project bringing together experts in autism, secondary education, adolescence, and implementation to work in collaboration with high schools, families, and adolescents with ASD.

The screenshot shows the CSESA Facebook page. The page header includes the CSESA logo, the page name "Center on Secondary Education for Students with Autism Spectrum Disorders", and navigation tabs for "Timeline" and "Recent". A large photo of a student in a blue graduation cap and gown is featured. Below the photo, the page name is repeated, along with "246 likes · 6 talking about this". The "About" section describes CSESA as a multi-site research and development center. The "Education" section provides a brief description of the center. The "Photos" section shows a photo of a student working at a desk. The "Likes" section shows a thumbs-up icon and the number "246".
