

# CSESA

The Center on Secondary Education for  
Students with Autism Spectrum Disorders

## **PREPARING HIGH SCHOOL STUDENTS WITH ASD FOR COLLEGE AND CAREERS**

David Test, Erik Carter, & Kate Szidon

Paper presented at the annual conference of the Division on Career  
Development and Transition, November 6, 2014, Cleveland, OH.

# About CSESA

- Research & Development Center
- Funded by the Department of Education (IES)
- Purpose: To develop and study a comprehensive high school program for students on the autism spectrum

# The Goal of CSESA

To improve post-secondary outcomes  
for students by using high quality  
professional development and  
evidence-based interventions to  
support practitioners, families, and  
students

# CSESA Sites

SAN DIEGO STATE  
UNIVERSITY

THE UNIVERSITY OF  
TEXAS  
AT AUSTIN

# The Big Picture

# CSESA Components

# **The CSESA Curriculum: Transition & Families Component**

Transition & Families

# Transition & Families

- Transitioning Together (family component)
- Transition Process
  - School and Community Resource Mapping
  - Transition Planning Process
  - Student Involvement in the IEP
  - Work Based Learning Experiences in preparation for postsecondary goals (college, careers, independent living)

# Family Support- Transitioning Together

## **Program Goals**

- Provide education and support for parents
- Emphasize positivity and problem solving
- Share relevant resources and referrals based on results of school and community mapping

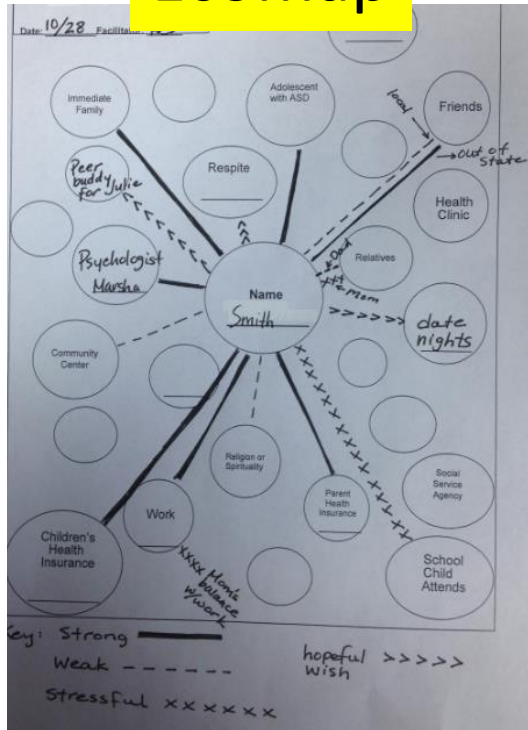

# Family Support- Transitioning Together Program Components

- 2 individual family “joining sessions”
- 8 multi-family weekly group sessions
- 8 sessions for teens

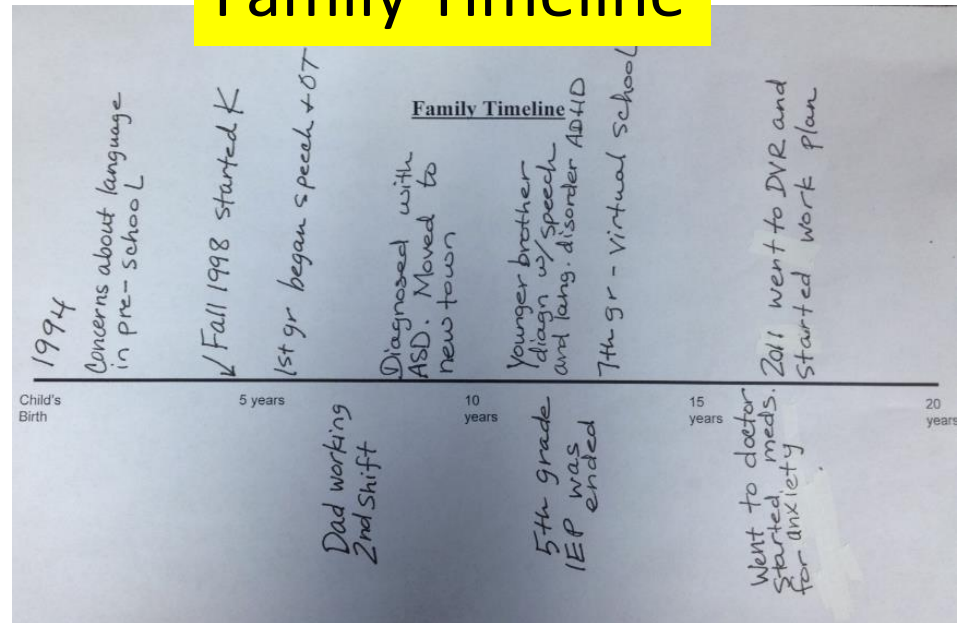

# Joining Session

## Ecomap

## Family Timeline

Family Goals might be:

- Finding respite opportunities so mom and dad can go on dates.
- A peer buddy for their daughter to have social opportunities.

# The problem solving process

STEP 1: DEFINE PROBLEM

STEP 2: LIST ALL POSSIBLE SOLUTIONS

STEP 3: DISCUSS ADVANTAGES AND  
DISADVANTAGES

STEP 4: CHOOSE THE BEST SOLUTION

# Transitioning Together Topics

- Autism in adulthood
- Transition planning
- Family Topics
- Problem-solving
- Risks to adult independence
- Community involvement
- Legal issues
- Risks to parental health and well-being

# Early Findings

## Positives

- Parents, staff, and teens reported satisfaction with the program and were highly engaged

## Information for CSESA

- Having a very heterogeneous group of families resulted in less discussion of autism-specific concerns

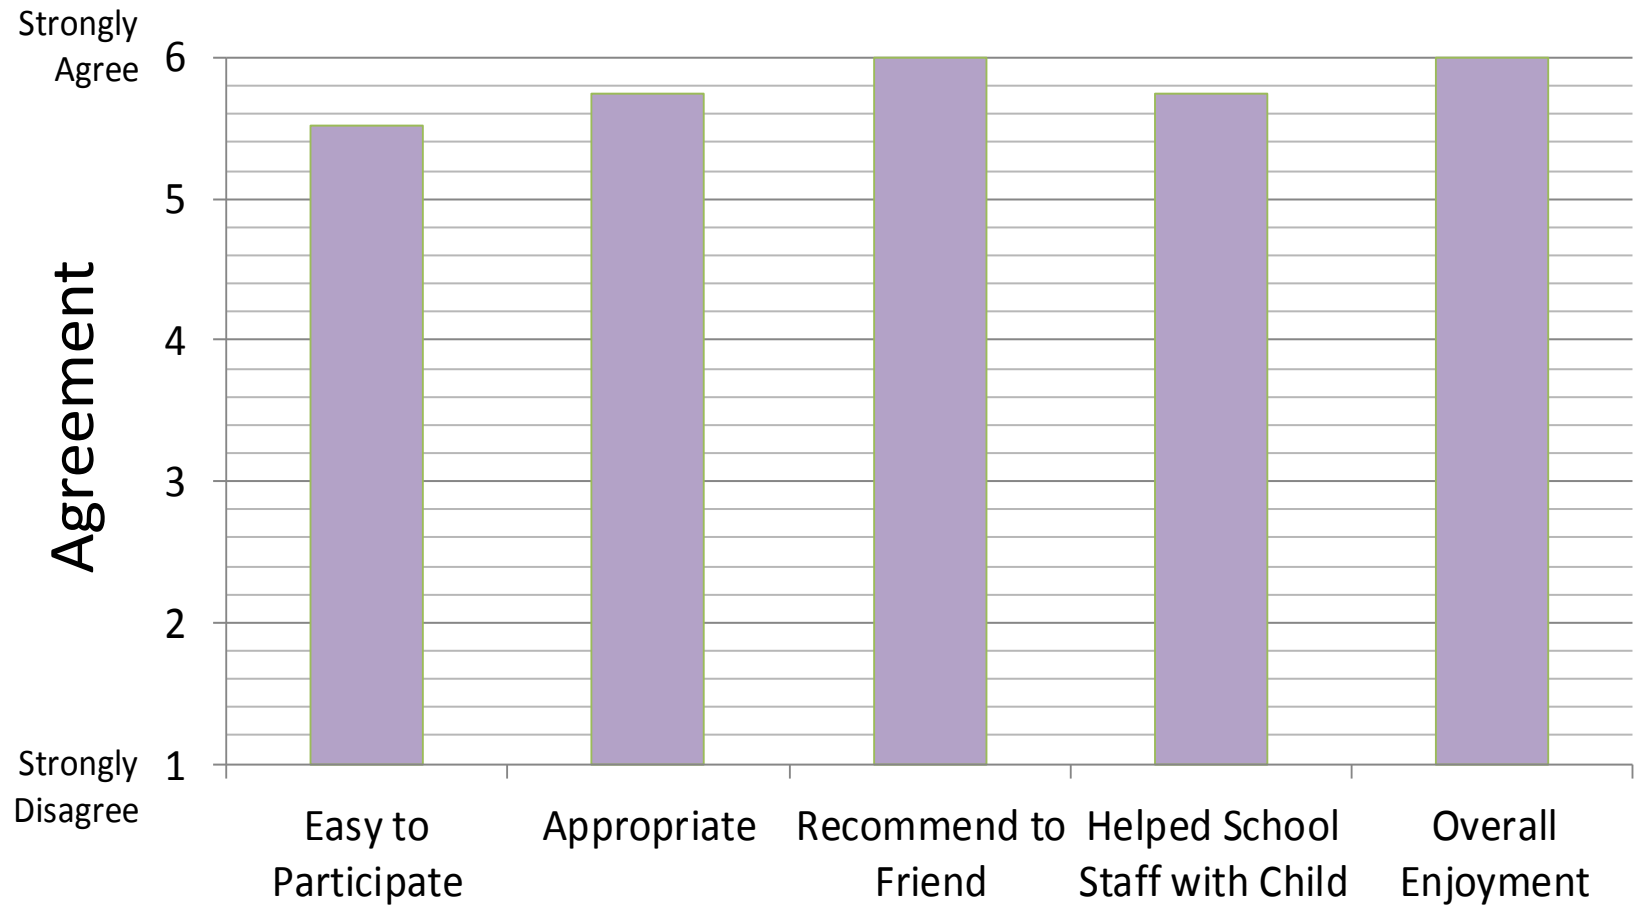

## Year 2 Parent Exit Interview

## Year 2 Parent Exit Interview

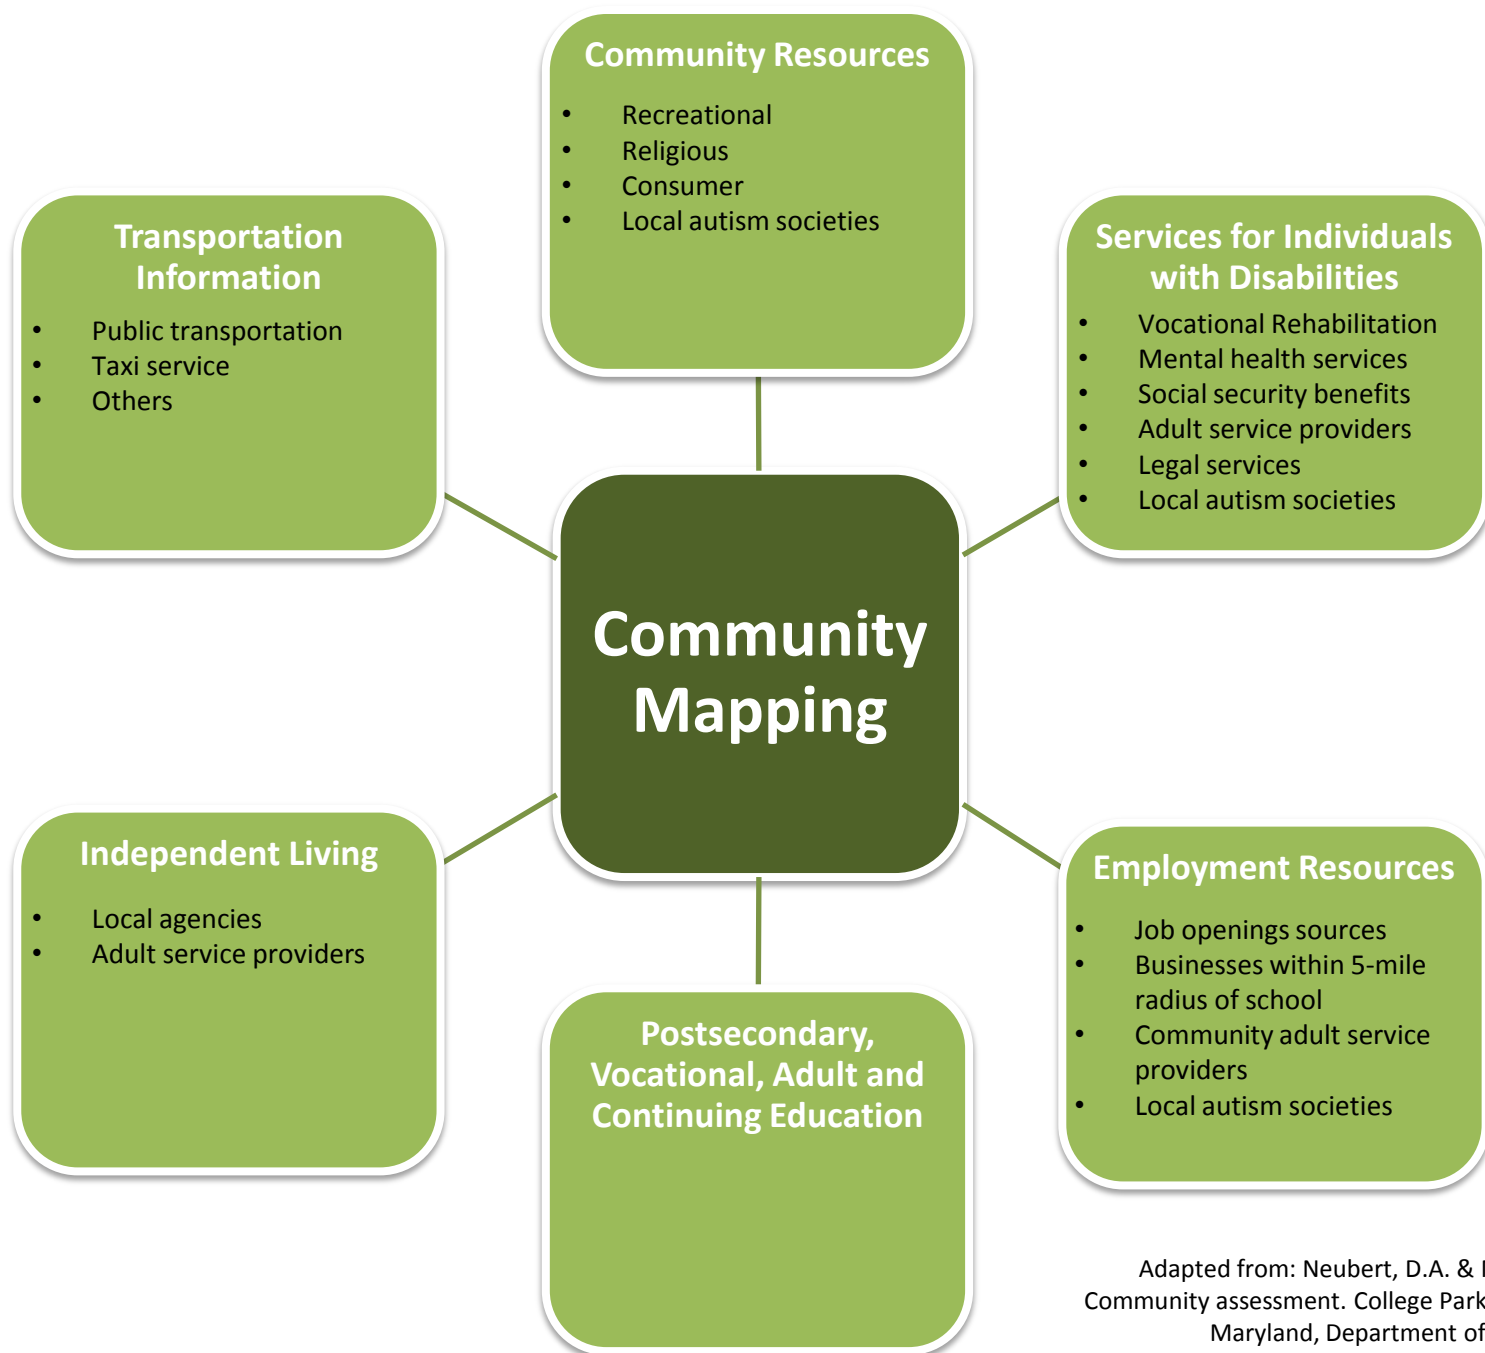

# Feedback from Parents

Do we have to quit meeting?

We will be doing things differently based on our experience in the group, especially working on the self help skills we never really gave him the opportunity to develop.

I enjoyed problem solving. Sometimes it's easy to forget the obvious solutions.

Our attitude changed. We didn't think our son could do a job and go to school-and he can do both.

# Transition Planning

- Conducting transition assessment to
  - ☐ Develop postsecondary goals
  - ☐ Identify transition services
  - ☐ Identify appropriate course of study
  - ☐ Identify annual goal instruction
  - ☐ Identify agencies to engage in planning
- Planning/ writing IEPs that meet I-13 (legal) requirements

# Indicator 13

- Percent of youth with IEPs aged 16 and above with an IEP that includes *appropriate measurable postsecondary goals* that are *annually updated* and based upon an *age appropriate transition assessment*, *transition services*, including *courses of study*, that will reasonably enable the student to meet those postsecondary goals, and *annual IEP goals* related to the student's transition services needs.
- There also must be *evidence that the student was invited to the IEP Team meeting* where transition services are to be discussed and evidence that, if appropriate, *a representative of any participating agency was invited* to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority. (20 U.S.C. 1416(a)(3)(B))

# TRANSITION SERVICES FLOW CHART

# Indicator 13 Quality Rubric

- 0 - 3 point rating for each item
- Adapted from Rhode Island's quality I-13 review rubric

# Student Involvement in the IEP

- Choice of 3 evidence-based curricula to teach
- Engages student in identifying strengths, needs, and goals
- Teaches about IEP process
- Prepares student to participate in the meeting at various levels

# Student Directed Meeting Resources

- *Self Directed IEP*
- *Self-Advocacy Strategy*
- *Whose Future is it Anyway?*

# Work Based Learning Experiences

|                                   |   |
|-----------------------------------|---|
| <b>Career Exploration</b>         | "Career Exploration involves visits by youth to workplaces to learn about jobs and the skills required to perform them. Visits and meetings with employers and people in identified occupations outside of the workplace are also types of career exploration activities from which youth can learn about jobs and careers." (Luecking, 2009, p.13)   |
| <b>Job Shadowing</b>              | "Job Shadowing is extended time, often a full workday or several workdays, spent by a youth in a workplace accompanying an employee in the performance of his or her daily duties." (Luecking, 2009, pg.13)   |
| <b>Job Sampling/Work Sampling</b> | "Work Sampling is work by a youth that does not materially benefit the employer but allows the youth to spend meaningful time in a work environment to learn aspects of potential job task and "soft skills" required in the workplace." (Luecking, 2009,p. 13)   |
| <b>Service Learning</b>           | "Service Learning is hands-on volunteer service to the community that integrates with course objectives. It is a structured process that provides time for reflection on the service experience and demonstration of the skills and knowledge required." (Luecking, 2009, p. 13)  |
| <b>Internships</b>                | "Internships are formal agreements whereby a youth is assigned specific tasks in a workplace over a predetermined period of time. Internships may be paid or unpaid, depending on the nature of the agreement with the company and the nature of the tasks." (Luecking, 2009, p.13)   |
| <b>Apprenticeships</b>            | "Apprenticeships are formal, sanctioned work experiences of extended duration in which an apprentice learns specific occupational skills related to a standardized trade, such as carpentry, plumbing, or drafting. Many apprenticeships also include paid work components." (Luecking, 2009, p.13)   |
| <b>Paid Employment</b>            | "Paid Employment may include existing standard jobs in a company or customized work assignments that are negotiated with an employer, but these jobs always feature a wage paid directly to the youth. Such work may be scheduled during or after the school day. It may be integral to a course of study or simply a separate adjunctive experience." (Luecking, 2009,p.13)  |
| <b>Mentoring</b>                  | "Mentoring is a person who through support, counsel, friendship, reinforcement and constructive example helps another person, usually a young person, to reach his or her work and life goals. Mentoring relationships provide valuable support to young people, especially those with disabilities, by offering not only academic and career guidance, but also effective role models for leadership, interpersonal and problem-solving skills."(Office of Disability Employment Policy, 2012) |

# Sample Work Sampling Activities

| Career Ready       |   |
|--------------------|---|
| Student Activities | <ul style="list-style-type: none"> <li>• Rotation through various community workstations</li> <li>• Sampling various job tasks</li> <li>• Career Assessments</li> <li>• Unpaid Workplace Experience</li> </ul>  |
| Resources          | <ul style="list-style-type: none"> <li>• <a href="#">Education for Employment in Kalamazoo County, Michigan provides Work Sampling experiences in real workplaces.</a> For more information see: <a href="http://kresa.org/efe">http://kresa.org/efe</a></li> </ul>   |
| College Ready      |   |
| Student Activities | <ul style="list-style-type: none"> <li>• Review an introductory, general syllabus from a college/ university level course. Choose one sample paper or project from the course. Map out a method of you completing one of the assignments. Create a time that includes all the steps you would take in order to make sure you completed the assignment.</li> </ul>   |
| Resources          | <ul style="list-style-type: none"> <li>• <a href="http://www.facstaff.bucknell.edu/rickard/101Syll.html">http://www.facstaff.bucknell.edu/rickard/101Syll.html</a> is a link to Professor John Rickard's English 101: Introduction to Fiction syllabus. Many of the fictional samples are synchronous to canonized texts found in most English 101 courses.</li> <li>• <a href="http://www.virginia.edu/vpsa/stdnt-disabilities-accom-hndbk07-08.pdf">http://www.virginia.edu/vpsa/stdnt-disabilities-accom-hndbk07-08.pdf</a> provides you with the guidance that the University of Virginia disseminates to their Faculty and Staff to help with accommodations for students with disabilities</li> </ul> |

## Today's Site: Habitat Restore

- ☐ Wash windows
  - Get rags from kitchen
  - Get Windex from cupboard in kitchen
  - Clean all the front windows
- ☐ Wash front doors
  - Use rags
  - Use Windex from cupboard in kitchen
  - Clean with two front doors at the front of the store
- ☐ Check with Supervisor

# Implementing in High Schools

## **Successes**

- More comprehensive transition assessment is occurring
- Increase in student presence at IEP meetings
- Combining IEP (Whose Future is it?) with AAL adapted text materials

## **Troubleshooting & Adaptations**

- IEPs, I-13 compliance vs. quality
- Still working on developing portfolio options

# What Have We Learned?

- Schools and families find community and school resource maps useful, once completed
- Teachers still have questions about transition assessment and the transition (IEP) process (I-13)
- Transition assessment leads to better WBLEs
- Students want to be involved in their IEP meetings
- Transition content and academic content can be integrated

# Peer Network Interventions

A social group of 3-6 students established around a student with a disability that:

- Meets weekly to talk, participate in a shared activity, and plan connections outside of the group
- Helps the student become more involved in everyday school life and be more connected to other school activities
- Receives feedback and support from an adult facilitator (e.g., teacher, coach, counselor)

# Basic Steps: Peer Networks

- Identify interested students with ASD
- Identify an adult facilitator for the peer network
- Identify and invite 3-6 peers to join the group
- Hold an initial orientation meeting with the peers (and possibly students)
- Facilitate regular peer network meetings
  - Arrange a mutually enjoyable activity
  - Check in on weekly social contacts
  - Encourage expansion of the network
  - Provide ongoing feedback and support to students
- Reflect upon, fade support, and maintain the network

# Peer Support Arrangements

One or more peers without disabilities providing ongoing social and academic support to classmates with disabilities within the classroom.

Peers...

- Facilitate student participation in class activities
- Provide frequent feedback and encouragement
- Model communication and other skills
- Promote interaction with classmates
- Support progress related to IEP goals
- Support current behavior intervention plans, as appropriate

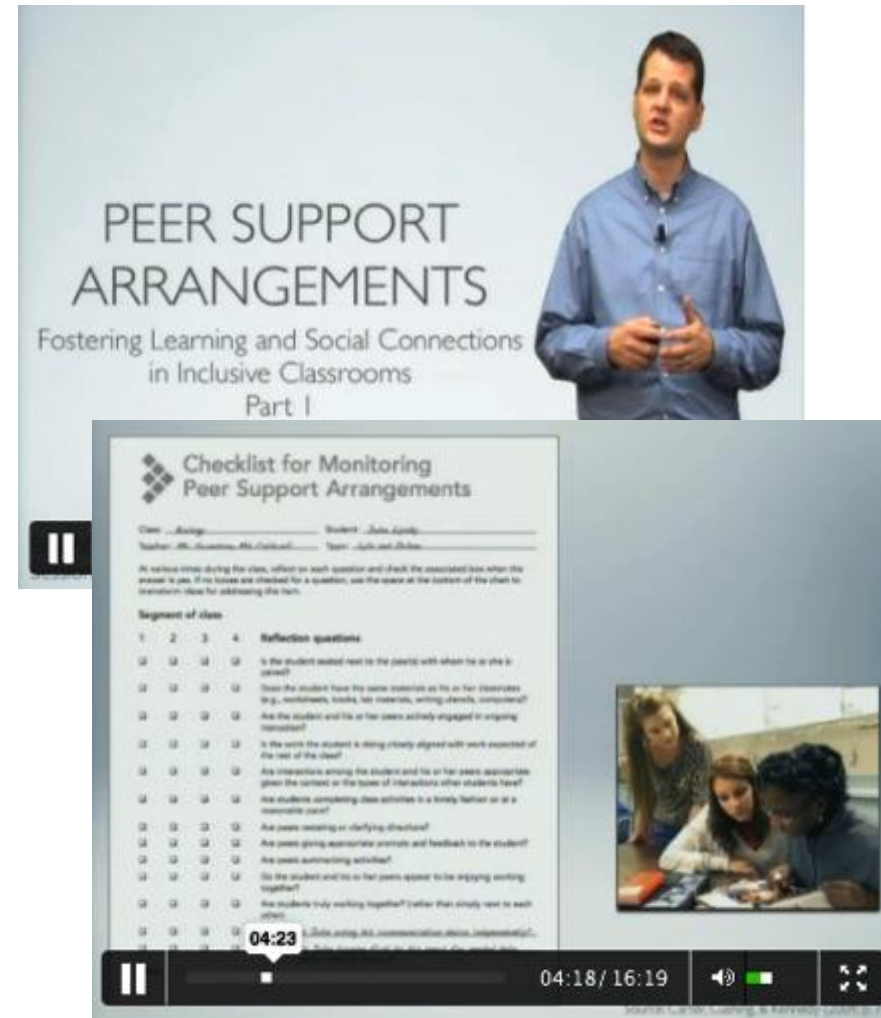

# Basic Steps: Peer Supports

- Identifying students with ASD who need assistance to participate in class activities
- Recruiting peers from within the same classroom to help provide some of these supports
- Arranging for students to sit next to each other during class activities
- Orienting peers to their roles and showing them basic strategies for supporting the academic and social participation of their classmate
- Providing ongoing monitoring, feedback, and assistance to peers and their partners throughout the semester, as needed
- Shifting paraprofessionals to a broader support role within the classroom through which they assist all students, as directed by the teacher

The image is a composite of two parts. The top part shows a man in a blue shirt standing next to a large book titled "PEER SUPPORT ARRANGEMENTS: Fostering Learning and Social Connections in Inclusive Classrooms Part I". The bottom part shows a video player interface displaying a "Checklist for Monitoring Peer Support Arrangements". The checklist includes a table with columns for "Segment of class" (1, 2, 3, 4) and "Reflection questions". The questions are: "Is the student asked next to the partner with whom he or she is paired?", "Does the student have the same materials as his or her classmate (e.g., worksheets, books, lab materials, writing utensils, computer)?", "Are the student and his or her peers actively engaged in ongoing interaction?", "Is the work the student is doing closely aligned with work expected of the rest of the class?", "Are interactions among the student and his or her peers appropriate given the context or the types of interactions other students have?", "Are students completing class activities in a timely fashion or at a reasonable pace?", "Are peers receiving or clarifying directions?", "Are peers giving appropriate prompts and feedback to the student?", "Are peers summarizing activities?", "Do the student and his or her peers appear to be enjoying working together?", and "Are students truly working together? (rather than simply next to each other)". The video player also shows a timestamp of 04:23 and a progress bar at 04:18 / 16:19.

# Peer Partner Programs

Formal, broad-based initiatives within a school to connect *groups* of students with and without disabilities, to promote inclusive activities, and greater awareness.

## Basic Steps:

- Laying the groundwork and securing support
- Identifying students
- Equipping students to support and spend time with each other
- Connecting at regular meetings or events
- Sustaining and expanding the program

[www.pattan.net](http://www.pattan.net)

# PASC Intervention Process

1. Assess student's social-related needs
2. Craft individualized, social-focused goals
3. Select intervention approach(es) and relevant contexts
4. Identify and provide training to facilitators
5. Implement the social-focused intervention
6. Involve families
7. Collect data to evaluate student progress

# What Have We Learned?

- Considerable improvements in the peer interactions, (durable) social contacts, and (lasting) friendships of students with ASD
- Beneficial for peers without disabilities in terms of changed views, expectations, and friendships
- Considered feasible and acceptable by peers, staff, parents, and other stakeholders; highly valued and low-/no-cost
- Actual implementation of peer supports and peer networks in schools is inconsistent; peer partner programs are more widespread. [Why?]
