**Child's Name:** Callie Oberman

**Goal 1:** Callie will state 3 things she did at school when asked by her parent while looking in the direction of her parent and standing / sitting still.

Date	Start and Stop Time	Noted Changes in Behaviors or Skills	Concerns / Questions	Parent Initials
3/1/09	2:30-3:00	<p>Callie spontaneously described one thing she did at school today. She talked about playing at recess with Lauren. I asked her questions about what she played. She told me they played on the swings.</p> <p>I asked her about other things she did at school. I had to ask her several questions before she was able to describe another activity. When I asked if she went to music, she said, "Yes". She then told me she played the piano.</p>	<p>I know some of the activities Callie performs at school but certainly not everything. It may be helpful for the teacher to send me a list of activities she completed at school so I will know what questions to ask her.</p>	R.O.
3/2/09	2:45-3:00	<p>Callie independently told me she made a caterpillar in art. I asked her, "what else," and she told me she played at recess. I asked her who she played with, and she told me Lauren.</p>	<p>I was so excited she told me about the caterpillar. This is the first time she has told me about her art class.</p>	R.O.
