Secondary School Success Checklist-Staff Version June 2014

The Secondary School Success Checklist (SSSC) is a tool that can be used by students, parents and families, and school staff to assess skills that will support a positive high school experience, and help in planning ahead for life after high school.

. The SSSC has two steps that will help teams to assess student skills:

- 1. **Skill Evaluation:** You will rate the level of support needed and demonstration of skills across 4 domains: Independence and Behavior, Transition, Social, and Academic
- 2. Priority Ranking: You will rank the importance of each skill which will help identify priority goals

The Secondary School Success Checklist includes 4 domains, 13 subdomains, and many specific behaviors that are proven to contribute to successful experiences during high school as well as to optimize outcomes after high school.

Instructions

- 1. Complete as much of the *Skill Assessment* as possible.
- 2. Complete the *Priority Rankings* for non-mastered skills (i.e., scores of 0 or 1 in skill assessment).

Key for Step 1: Skill Evaluation (left column)	Key for Step 2: Priority Ranking (middle column)
 0= This is <u>not</u> like my student. My student is not/rarely able to demonstrate this skill with the supports I provide to the group 1=This is <u>sort of</u> like my student. My student is able to demonstrate this skill regularly with additional supports (e.g. individual attention, visual information, additional reminders, adjusted assignment) <u>AND/OR</u> My student is able to demonstrate this skill sporadically with the supports I provide to the group. 2=This is <u>very much</u> like my student. My student is able to demonstrate this skill regularly with the supports I provide to the group. 	 0= Not a concern Though the skill is not demonstrated consistently and or independently, it is not a concern or priority in this environment 1= Minor concern Demonstrating this skill consistently and/or independently would be helpful in this environment 2= Major concern Demonstrating this skill consistently and/or independently would be helpful in this environment Demonstrating this skill consistently and/or more independently is a requirement in this environment.
